

XC INTELLIGENT MOBILE SHOCK CRUSHER XC8500(SAND MAKER) - XCRUSHER.COM

Advantages and Characteristics:

Sturdy structure: modular design, easy to replace, high fatigue resistance, stronger impact resistance.

Main Crusher: The main crusher adopts an automatic control system with fully automatic crushing process control, one-button automatic start and advanced fault diagnosis functions, which can realize overload protection for crushing operations, and automatic stop function for insufficient oil pressure or no oil.

Main features: Processing of natural stone such as cobblestone, granite, bauxite, etc.; and construction residues such as steel slag, concrete, cement, etc., the finished material is cubic, with low needle-like content and almost no internal cracks.
